The Racer's Group made the most of some perfect weather this weekend at the famous Lime Rock Park.

The race started with Ben Keating in the No. 66 Port Lavaca Auto Group/Viper Exchange/Adobe Road Viper.

With less than twenty minutes left, TRG found themselves running fourth and fifth when a caution flag brought out the race.

In the Grand Precast No. 68, a difficult qualifying session left it starting in the back of the GTC class, but it managed to finish fourth.

Kevin Buckler on the podium:

"I was really proud of the team this weekend. Everybody worked really hard and you could feel the chemistry of the team."
