## HISTORY OF LE MANS

The 24 Hours of Le Mans is the world's oldest, active endurance sportscar race, held annually since 1923. Considered to be one of the most prestigious automobile races in the world, it is organized by the Automobile Club de l'Quest (ACO) and runs on the Circuit de la Sarthe, a circuit mixing closed public roads and tarmac that is a grueling test of endurance for car and driver. Aston Martin Racing has earned nine podiums over the last 10 years at Le Mans, including class wins in 2006, 2008, 2013 and that thrilling 2017 victory with that final lap pass.

## THE RACERS GROUP LE MANS LEGACY

In 2002, a little known privately held team from the USA - The Racers Group - entered the world famous endurance classic and defying all of the odds, team owner and driver Kevin Buckler and his teammates drove their way to a GT class victory on their very first try. Buckler went on to earn the coveted Porsche World Cup as Porsche's most acclaimed driver during that season, which also included a victory at the Rolex 24 Hours at Daytona.

## THE PARADE

The Le Mans Festival drivers have been invited to attend the official Le Mans Drivers' Parade which will take place in the days leading up to the event. This highly anticipated festival atmosphere is one of the highlights of the week and will see the drivers of the 24 Hours of Le Mans and the Aston Martin Le Mans Festival along with more than 100,000 spectators in attendance for this celebration in the historic Le Mans City Centre.
